

LUISA PEIXOTO
HANDMADE FOREVER

Luxury Bespoke Furniture 1997-2020

Luísa Peixoto is an ethical company combining quality and authentic furniture, 23 years active and responsible.

We reinvent ourselves and we remain faithful to our essence.

The new creations were inspired by geometric, organic and bold contemporary trends.

We love beautiful things that are well made, we believe aesthetics is equivalent to ethics.

The same values and the same original timeless designs can improve your happiness and well-being.

Make your wishes come true, nothing is more important than a home in good mood.

Home is our second skin.

Live better with less that lasts longer.

Thank you for being a loyal furniture lover.

New Artistic Collaboration

We are proud to present our new artistic collaboration with Axel Criege.

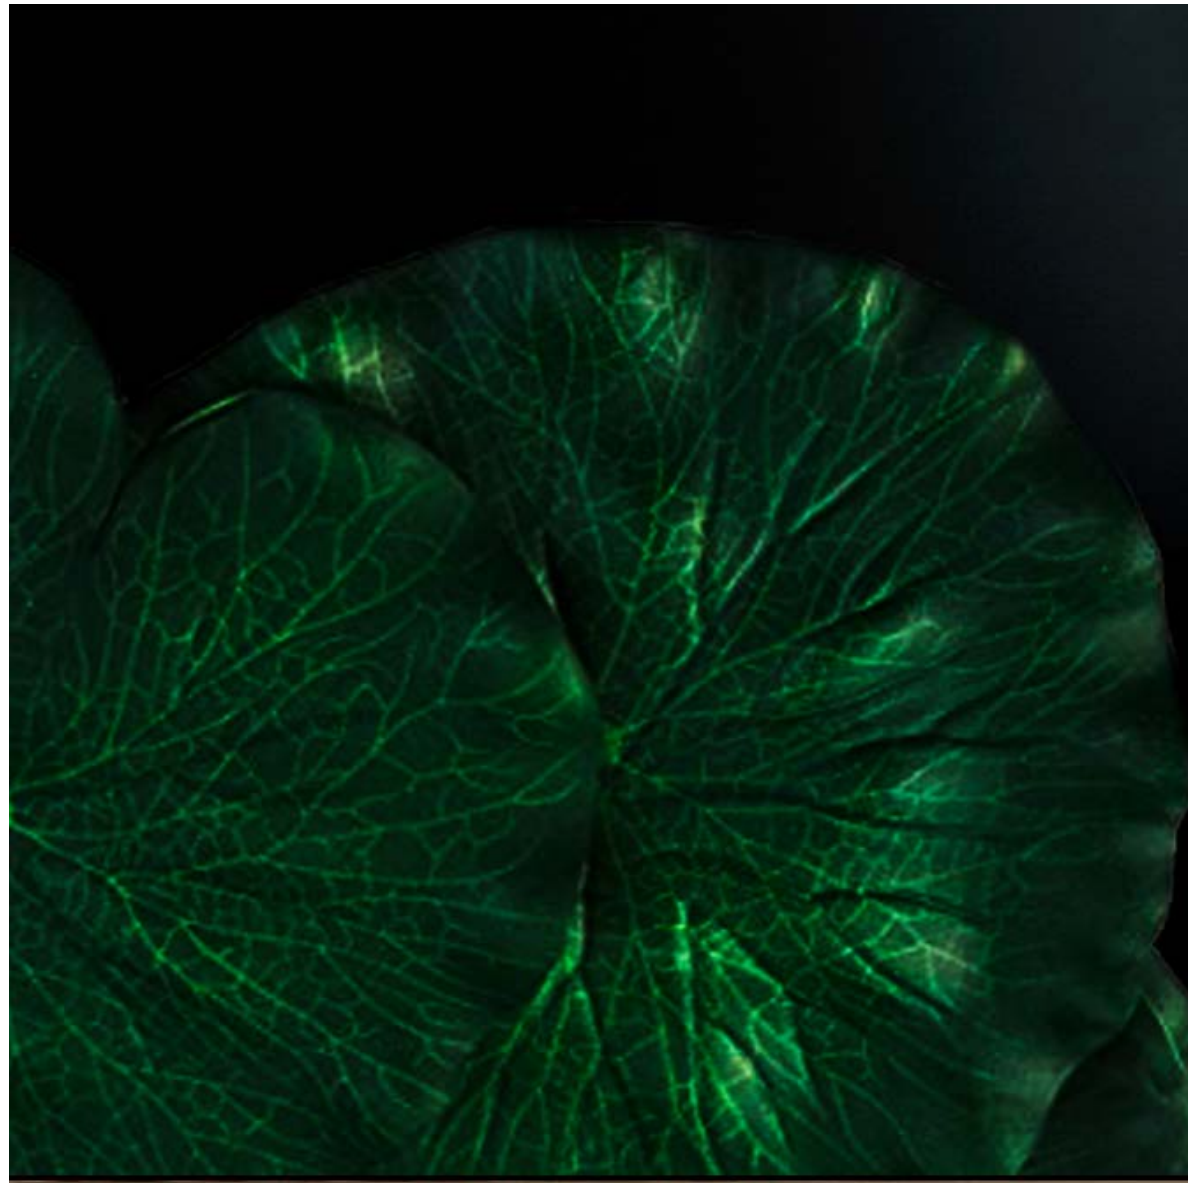

What Axel says about us:

In an era where art, design, fashion, architecture, music and literature melt into one we meet. You may think that you create furniture this ain't true - you create a different view on life. In this age creativity and audacity are the currency of the future. To brake barriers, to do the unexpected and dilute common concepts and perceptions is a long standing artistic practice but in these times it becomes an obligation. I am looking forward to join you in one of your endeavours.
