

NOTHING IS MORE NATURE FRIENDLY THAN A PIECE THAT LASTS A LIFETIME

ECOLUXURY

LUXURY BESPOKE FURNITURE 1997-2019

Over the last 22 years, we have been led to believe that people prefer handmade furniture.

This belief has turned us into pioneers in this area in Portugal. In every tailored piece, we assume a strong passion for handcrafted work, pay our respects to the true essence of raw materials, appeal to our clients' confidence, bolster exclusivity and guarantee the most rigorous quality controls and attention to detail.

Every element created is an experience for the senses. If you take a look at our interior design projects, you can see what we have achieved on countless hotels in Europe, Africa and the Middle East, in private houses, or even executing our clients' original ideas. A high point for us was the folding screen designed for one of Pope Benedict XVI trips. He loved it so much that he kept it for himself.

In 2005 we began exporting our expertise, with a recurring presence on the leading furniture and design exhibitions in France, UK, Italy and UAE. To celebrate our 15th anniversary in 2013, we challenged 15 artists to give a contribution on some of our most iconic pieces, and this idea was such a success that these collaborative experiences remain until this day.

We use wood from plantations with strict control in accordance to the trees life cycle, supporting the necessary recycling and reflorestation.

Our suppliers are companies strongly engaged with environmental issues.

All of our products are made in portuguese factories that respect human rights and work conditions.

Our products do not contain formaldehyde. We respect Nature. We care about Home!

Nothing is more friendly than a piece that lasts a lifetime.

An endless passion moves us!
